

Alexander Coronell

Full Stack Developer (Frontend-Focused)

Medellín, Colombia · [linkedin.com/in/alex-coronell/](https://www.linkedin.com/in/alex-coronell/) · +57 319 435 31 94
contact@alexcoronell.dev · <https://cv.alexcoronell.dev> · <https://github.com/alexcoronell>

*Full Stack Developer with a strong focus on frontend engineering and proven experience delivering high-performance, business-oriented web applications. Specialized in modern frontend architectures (**Astro**, **Svelte**, **React**, **Angular**) with a solid backend foundation using **Node.js** and **NestJS**. Experienced in **technical SEO**, performance optimization, and building scalable solutions aligned with business goals.*

PROFESSIONAL EXPERIENCE

Catapult Steel Buildings

Medellín, Colombia

Fullstack Developer, IT Coordinator

July 2021 - January 2026

- Led the design and development of business-oriented web platforms using modern frontend architectures (**Astro**, **Svelte**), with a strong focus on performance and **technical SEO**, contributing to ~50% organic traffic growth.
- Designed and built internal administrative applications using **React** and **Next.js**, improving operational efficiency and internal workflows.
- Designed and implemented an internal CRM end-to-end, including **PostgreSQL** data modeling, backend architecture with **Node.js/NestJS**, and frontend architecture with **Angular**, reaching beta deployment for lead and quote management.
- Developed automation solutions, including a desktop automation bot built with **Electron**, **Bootstrap** and **Firebase** and the maintenance of an existing **Python** automation bot using **Selenium** and **BeautifulSoup**, significantly reducing manual operational workload.
- Led the full migration from **SuiteCRM** to **Zoho CRM**, including data analysis, module configuration, workflow automation, and support for sales teams.
- Managed cloud infrastructure and deployments using **AWS** and **Cloudflare**, ensuring platform stability, performance, and cost optimization.

Micropoint S. A. S.

Medellín, Colombia

On-Site Support Analyst / Service Desk

September 2018–July 2021

- Provided technical support in high-demand corporate environments for enterprise clients, ensuring system reliability and operational continuity.
- Contributed to the implementation of SURA's Digital Services Center, supporting the standardization of IT security and operational processes.

EDUCATION

SENA

Medellín, Colombia

Associate's Degree in Information Systems Analysis and Development

TECHNICAL SPECIALIZATION & CONTINUOUS LEARNING

- Hands-on experience with modern frontend architectures, including Island Architecture using Astro and component-driven development with Svelte, React, and Angular.
- Continuous learning in backend development with Node.js, NestJS, and Python (Django), supported by practical projects and experimentation.
- Strong focus on web performance, Core Web Vitals, accessibility, and technical SEO to maximize product visibility and business impact.
- Self-directed learner with ongoing professional development through official documentation, technical courses, and real-world experimentation.
- Full training and course history available at: <https://cv.alexcoronell.dev/courses>
